

BLUEGRASS HORSE FEEDS

Top Tips on Storing Feed

KEEP FEED BAGS OFF THE FLOOR

Keep feed bags raised off the floor i.e stacking them on pallets or placing them into sealed feed containers.

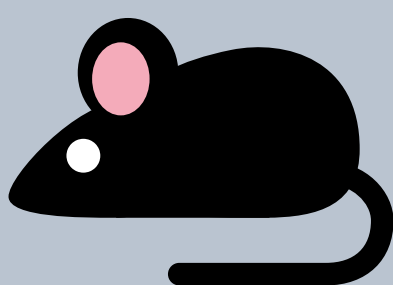

ALWAYS CLEAN FEED BINS

Always clean out your feed bin before putting in new feed. Mould, fungi and bacteria can grow in your bin and contaminate fresh feed. It is also important to always clean your buckets and feeding equipment.

WATER PROOF

Bluegrass Horse Feeds bags are durable but are NOT completely water proof. Water can enter the seam of the bags and cause the feed to become contaminated.

RODENT PROOF

Keep your feed room clean, dry and rodent free. Keep feed in rodent free, sealed containers/ bins. .
